Return of invalid wristband

Qualica-RD 6001E

Large capacity collection box for wristbands.

Qualica-RD 6001E is an access control device designed to collect wristbands, it can operate independently or be integrated with turnstiles for joint use. Suitable for indoor applications.

When the device receives a valid wristband, it automatically triggers the opening of the connected doors. If an invalid wristband is detected, the system returns it through the lower window after the verification process.

3 years warranty. Lower energy consumption and low noise level. LED indicator of passage status. Easy to install and maintain.

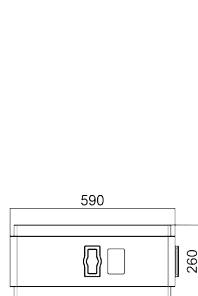

3 years  warranty!

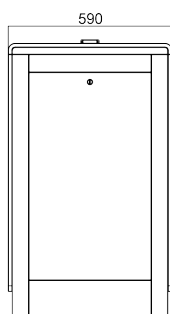

Technical specifications
